

Full Stack Developer Role

***About us:**

RoboClaim is an insurtech startup dedicated to transforming the property and casualty (P&C) insurance claims lifecycle through advanced AI-driven automation.

We tackle the complexities of claims processing by streamlining workflows and automating manual tasks, drastically reducing processing times and improving accuracy. Our solutions empower clients to handle claims with greater speed and precision, enhancing the customer experience while reducing the operational burden of claim management. With a focus on continuous innovation, RoboClaim is setting new benchmarks for automation in the insurance industry.

If you're passionate about creating impactful technology solutions, join us in reshaping the future of insurance!

***Job Overview:**

You'll be instrumental in both front-end and back-end development. You will contribute to building and maintaining scalable and robust applications, using your skills to enhance user experience and backend functionality.

This role is an incredible opportunity for a developer with a solid foundation in full-stack technologies, who is eager to apply their skills in a fast-paced and impactful environment.

***Key Responsibilities:**

- Design, develop, and maintain web applications tailored to our clients using the MERN stack.
- Work closely with other developers, stakeholders, and project managers to deliver high-quality solutions on time.
- Collaborate with clients, specifically insurance companies, to understand their integration needs, ensure smoothness of the process and provide effective solutions.

- Build projects from the ground up, including architecture, design, and implementation, ensuring a strong foundation for future development.
- Implement secure payment processing systems, ensuring compliance with industry standards and best practices.
- Conduct code reviews and ensure best practices in coding standards, performance, and security.
- Identify and resolve issues in applications, working to improve overall performance and user experience.
- Maintain clear and comprehensive documentation of code, processes, and integration methodologies.

***Job Qualifications & Requirements:**

- Bachelor's degree in Computer Science or a related field, or equivalent practical experience.
- A minimum of two years of proven experience as a Full Stack MERN Developer is a must.
- Effective teamwork and communication skills.
- Fluent command of spoken and written English language
- Strong proficiency in key full-stack technologies such as JavaScript, React.js, Next.js, Node.js, MongoDB.
- Strong experience working with databases (SQL, NoSQL, PostgreSQL).
- Familiarity with RESTful APIs and modern front-end build pipelines and tools.
- Experience with code versioning tools, such as Git.
- Knowledge of containerization and orchestration tools like Docker and Kubernetes.
- Experience with cloud platforms (AWS, Azure, GCP) and styling frameworks (CSS, Tailwind, Material UI, Chakra UI) is a preferred.
- Experience with payment gateways and secure payment processing is a plus.
- Familiarity with insurance industry practices and integration processes is a plus.

***What We Offer:**

- Opportunity to work on innovative projects.
- Collaborative and supportive work environment.
- Professional development opportunities and ongoing training.
- Career growth opportunities.
- Full-time job with flexible working hours.
- Working fully remote.

****More about RoboClaim:****Our Culture:**

- **Impact Beyond Code:** At RoboClaim, we're not just coding; we're making a difference. We seek team members who are passionate about creating meaningful change in the tech world.
- **Growth-Oriented Mindset:** We value the willingness to learn and grow beyond the conventional workday. Our environment is perfect for those who aspire to develop their skills and contribute to exciting technological advancements.
- **Adaptive and Agile:** As a startup, we embrace change and learning. RoboClaim is an ideal place for those who thrive in an evolving and dynamic atmosphere.
- **Team Collaboration:** Collaboration is key in our team. As a mid-level developer, you'll have the chance to both learn from seasoned professionals and mentor junior team members.
- **Innovative Workspace:** We focus on fostering innovation and creativity. Our workspace is a hub where great ideas are born and developed into groundbreaking solutions.

Are you ready to take your Full Stack Development skills to the next level with RoboClaim? Join us and contribute to a team that's shaping the future of technology!
